

Dear participants,

Welcome to the II Conference

"Medical Malpractice - civil and criminal liability of the
medical personnel"

This year we propose you to participate in sessions addressing topics of interest both to the medical staff and legal practitioners.

The scientific program of the conference includes sessions dedicated to **"Ethics Councils"**, **"Ethics and Medical Law in Malpractice"**, **"Medical Professional Liability"**.

The approached topics will emphasis notions of ethics and legislation specific to the medical field, will allow acquiring knowledge and in particular an understanding of the legal significance of the contemporary medical act.

The conference will be an opportunity to meet with professionals from the medical, legal, managerial, health policy and insurance domains, minded on medical malpractice.

We want the participation in the conference to develop a legal culture necessary and appropriate for clinical use at a level that allows professional performance in a competent and responsible manner.
